3rd Annual Multidisciplinary Interactive Symposium: A Precision Medicine Partnership for Better Patient Care

December 9-10, 2023

This innovative and interactive symposium, now in its third year, will bring together pathologists and oncologists from Florida to discuss the recent advancements in utilizing molecular diagnostics and precision medicine for the diagnosis and treatment of cancer. The event is hosted by the Florida Society of Pathologists in collaboration with the Florida Society of Clinical Oncology. We expect 100 attendees.
